

Equipment

Main Equipment

There are certain things we take with us on every trip.

Many of the items have been gathered and assembled over time

Most of them are here : https://www.amazon.com/hz/wishlist/ls/2SI0ID5QHDJKR?ref_=wl_share

They include :

- Travel bag with Sundries, Utilities, & Medications
- Binder for Logging - <https://www.amazon.com/gp/product/B0CPHNVB9Q/>
- Bingo Daubers - <https://www.amazon.com/dp/B09M6SHDT4>
- Kodak AZ425 Camera - <https://www.amazon.com/dp/B06XHPXB59>
- Camping Chairs

Weather Spotting

Recently, we received training in [NWS's Skywarn](#) program.

Skywarn spotters are tasked with reporting various kinds of hazardous weather to the National Weather Service.

In case we do encounter any hazardous weather, we carry the following :

- Anemometer (Wind & Temp) - <https://www.amazon.com/gp/product/B07CWLNGQ1/>
- Caliper (Hail) - <https://www.amazon.com/gp/product/B07B49JHLX/>
- Spotter's Reference Guide - [Spotter Reference Guide 2024.pdf](#)

- Notepad and Pen

We also have a weather monitor with an external sensor - <https://www.amazon.com/gp/product/B0CJJKWRF6/>

The sensor is mounted inside of the front bumper and measures Temperature, Humidity and Barometric Pressure. Temperature can be touchy since it is detecting it from the car and the road. While in motion, it is fairly accurate.
